FINAL REPORT  
FOOD AND NUTRITION PROGRAMS  
FISCAL YEAR 1974**

---

UNITED STATES DEPARTMENT OF AGRICULTURE  
FOOD AND NUTRITION SERVICE  
FNS 150

RECEIVED  
FEDERAL BUREAU OF INVESTIGATION  
JAN 19 1975

# Summary

---

The Food and Nutrition Service (FNS) was established in August 1969 to concentrate on the administration of Federal food programs.

In fiscal year 1974:

- Federal contributions to food assistance programs climbed to \$4.6 billion. Slightly over \$4 billion represented cash payments to States and bonus food stamps, while the value of donated foods totaled \$600 million.
- The number of children participating in the National School Lunch Program reached a peak of 25 million. Of these, 9.5 million children were reached with free or reduced price lunches.
- Virtually all needy Americans had access to family food assistance by the end of fiscal year 1974.
- A total of 16.1 million people took part in either the Food Stamp or the Food Distribution Program.

# Child Nutrition Programs

Through several Child Nutrition Programs administered jointly with State and local educational agencies, FNS provides cash and food assistance to help support food services to children in public and nonprofit private schools, child-care centers, settlement houses, summer day camps and recreation centers.

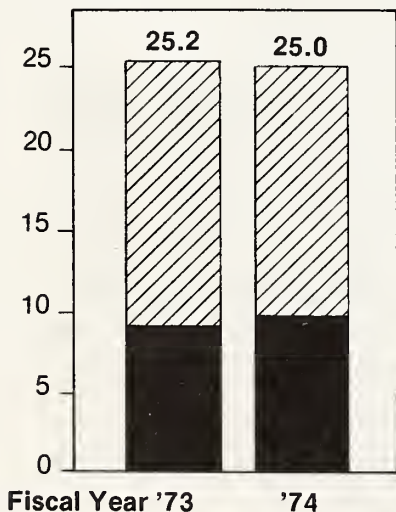

In fiscal year 1974:

- The total number of meals served in all Child Nutrition Programs came to slightly over 4.4 billion, 49 million more than in fiscal year 1973. The bulk of the meals — 4 billion — were served in the National School Lunch Program.

- The number of free and reduced price meals increased 8 percent from 1.7 billion to 1.9 billion.
- Federal contributions to Child Nutrition Programs totaled \$1.6 billion, representing an increase of 14.3 percent over fiscal year 1973. Of this amount, \$1.3 billion was cash apportioned to States, and the remaining \$300 million was the Federal cost of donated foods.

# National School Lunch Program

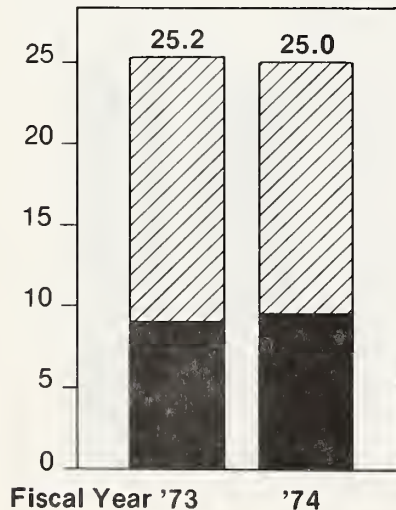

Oldest and largest of the Child Nutrition Programs, the National School Lunch Program was enacted in 1946 to assist the States in establishing, maintaining and expanding nonprofit lunch service in elementary and secondary schools. The availability of the National School Lunch Program increased from 24.8 percent of the U.S. student enrollment when the program began in 1946, to 85.9 percent in fiscal year 1974.

In fiscal year 1974:

- The program was available in 87,579 schools, 1,198 more than a year earlier.
- Student participation peaked at 25 million, representing 57 percent of the children enrolled in participating schools — about the same percentage as the previous year when school lunch participation peaked at 25.2 million children.
- The program reached 9.5 million needy children with 1.5 billion free or reduced price lunches. This compares with 9.0 million needy children receiving 1.4 billion free or reduced price lunches the previous year.

Commodities

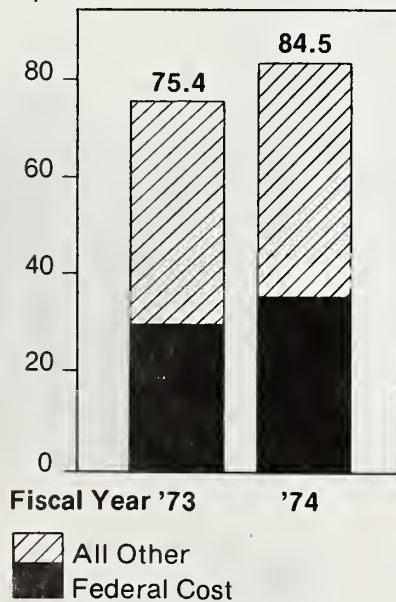

Cash

- The total cost of the Federal-State-local program was nearly \$3.4 billion. The Federal contribution, including USDA donated food, was \$1.4 billion, or 41 percent of total program cost.
- The Federal contribution per lunch averaged 35 cents, 27.2 cents in cash and 7.8 cents in donated foods. That was 16 percent higher than the previous year, due in part to new legislation increasing the rate of Federal reimbursement and requiring semi-annual adjustments in the rates of payment, to keep pace with food cost changes.

#### Cost Per Lunch Cents

Up 12.1%

# School Breakfast Program

Authorized on a limited basis under the Child Nutrition Act of 1966, the School Breakfast Program was made available in 1973 to all schools desiring it. The Federal Government provides cash reimbursement, donated foods, and technical guidance to States to assist in providing school breakfast service.

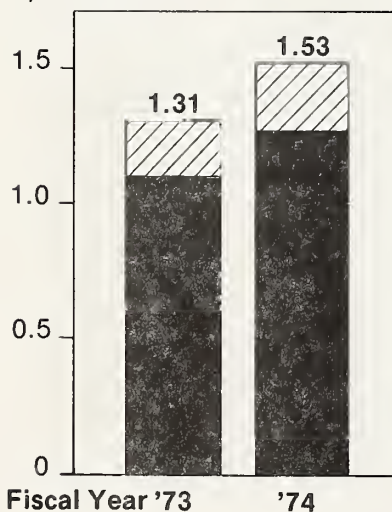

In fiscal year 1974:

- The breakfast program reached 1.5 million children in 11,882 schools, compared with 1.3 million children in 9,704 schools in fiscal year 1973.
- Nearly 83 percent of the 226.7 million meals served under the program were provided free or at reduced price to eligible needy children. The percentage of meals provided free or at reduced price was about the same as the previous year.
- Federal contributions totaled \$65.9 million including \$6.8 million worth of donated foods and \$59.1 million in cash reimbursement. The total was 63.1 percent higher than the \$40.4 Federal contribution in fiscal year 1973.

- The average Federal contribution per breakfast amounted to 29.1 cents, 8.3 cents higher than the previous year. The contribution was 39.9 percent higher than the year before, due in part to new legislation increasing the rates of Federal payment and providing for semiannual adjustment of payment rates in line with food price changes.

# Special Food Service Program

The Special Food Service Program was begun in 1968 to provide assistance for meal service in year-round day care centers and summer recreation programs serving needy school-age children. The program was broadened in scope during fiscal year 1974, as responsibility for the food service activities of Head Start Programs was transferred to the Special Food Service Program.

In fiscal year 1974:

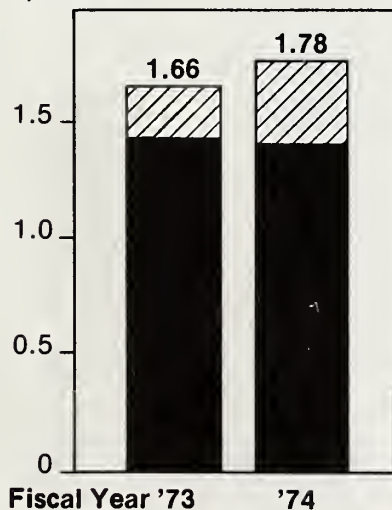

- The program was available through a total 19,041 centers, 3,485 more than last year's total of 15,556. Of this total, some 10,626 centers were involved in the summer activities and 8,415 were in the year-round program.
- The program reached nearly 1.8 million children, 117.8 thousand over the previous year, representing a 7.2 percent gain. Participation in the summer phase showed little change in fiscal year 1974 over fiscal year 1973, about 1.4 million both years. The number of children participating in the year-round activities increased from

225,000 in fiscal year 1973 to 377,000 in fiscal year 1974, largely due to the addition of Head Start Programs.

- A total of 227 million meals were served, 24 percent more than the previous year. Nearly 72 percent of the total was provided in the year-round program.
- Federal contributions climbed 36.9 percent to \$64.9 million. Slightly over \$3 million represents the value of commodities distributed by USDA and almost \$62 million was cash reimbursement. Of the total Federal contribution, the summer activities accounted for \$33.9 million, while the year-round program used \$31 million.
- Federal contributions averaged 28.2 cents per meal, compared with 25.7 cents in fiscal year 1973. Federal contributions for the summer program averaged 53.2 cents per meal, 12.3 cents more than a year earlier. For the year-round activities, these contributions averaged 18.4 cents, 1.2 cents more than the previous year.

# Special Milk Program

The Special Milk Program reimburses schools, child care centers, settlement houses, and summer camps for part or all of the cost of milk served, and thus reduces the cost to the children. This program is especially important where there is no regular food service.

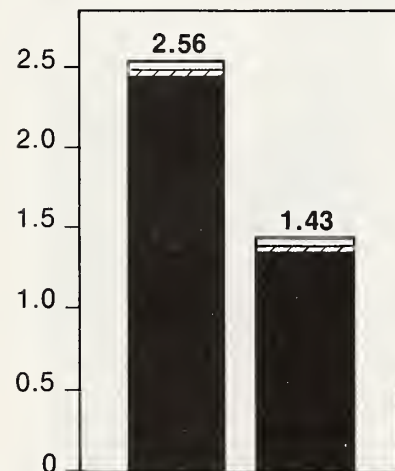

In fiscal year 1974:

- The program was available in 91,000 outlets — 85,000 schools, 2,200 child care institutions, and 3,600 summer camps. This compares with the previous year's total of 99,000 outlets.

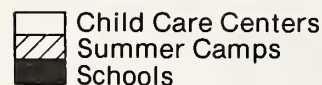

- Over 1.4 billion half-pints of milk were served.
- Federal cash contributions totaled \$49.2 million — \$47.1 million to schools, \$1.2 million to child-care institutions and \$900,000 to summer camps. The Federal contribution per half-pint of milk averaged 3.44 cents, down 3.1 percent from last year's 3.55 cents.

# Nonfood Assistance Program

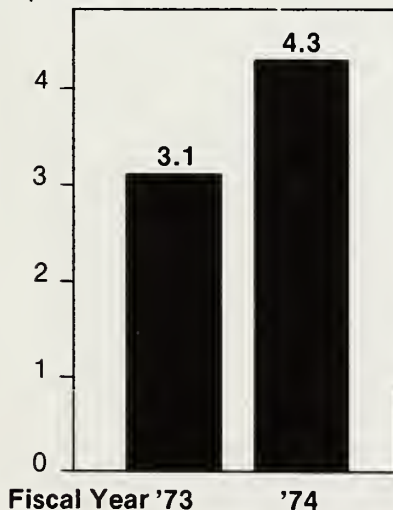

The Nonfood Assistance Program makes funds available to State educational agencies to help schools in low-income areas acquire food service equipment, to establish, maintain or expand food service programs. Schools receiving the aid must take part in the National School Lunch or School Breakfast Programs.

In fiscal year 1974:

- A total of \$27.2 million was provided to 8,489 schools to buy equipment, of which \$13.5 million went to 1,442 schools that had previously been without food service. Expenditures were up 78.9 percent over the \$15.2 million used the previous year to aid 6,442 schools.
- Average daily attendance at schools receiving nonfood assistance was 4.3 million children, 39 percent above the previous year's total of 3.1 million. Of the total 4.3 million children, 3.6 million were attending schools with an existing food service, and the remaining 700,000 were attending schools that initiated a new program in fiscal year 1974.
- The average expenditure per school rose to \$3,203, a gain of 36 percent over the previous year. The average was \$9,342 per school in those starting new programs, and \$1,947 per school in those with existing programs.

# Family Food Assistance Programs

The Food Stamp Program was established as the primary means of family food assistance by the Congressional mandate of August 1973. Thus, by the end of fiscal year 1974, the Food Stamp Program was available in areas where 94 percent of the U.S. population lives; with the rest covered by the alternative program of direct food distribution. Most of the remaining food distribution areas had firm plans to switch to food stamps early in the fiscal year beginning July 1, 1974.

In fiscal year 1974:

- Some 16.1 million people benefited from either a Food Stamp or a Food Distribution Program in the peak month of operation — 3.9 percent more than last year's total of 15.5 million. A rising share, 85 percent, of these participants were food stamp users in fiscal year 1974, reflecting the transfer of 594 counties from food distribution to food stamps. In the last month of the fiscal year, some 14.9 million people participated in either a Food Stamp or Food Distribution Program, representing a 2.8 percent increase over the same month in the previous year.
- The average Federal contribution per person per month increased 20.6 percent in

the Food Stamp Program, from \$14.60 in fiscal year 1973 to \$17.61 in fiscal year 1974. In the Food Distribution Program, the Federal cost of the food "package" was \$7.97, representing a 5.4-percent increase over the average benefit per person of \$7.56 in fiscal year 1973.

- Federal expenditures for the Food Stamp and Food Distribution Programs totaled \$2.9 billion, or almost \$535 million more than in fiscal year 1973.

In addition to the two major programs, aid to needy persons was also provided through:

**Disaster Relief** to victims of tornadoes, hurricanes, floods, and other natural disasters. During fiscal year 1974, donated foods and bonus food stamps were issued to aid 148,000 disaster victims at a cost of \$2.1 million. This compares with \$13.1 million spent the previous year to aid nearly 1 million disaster victims.

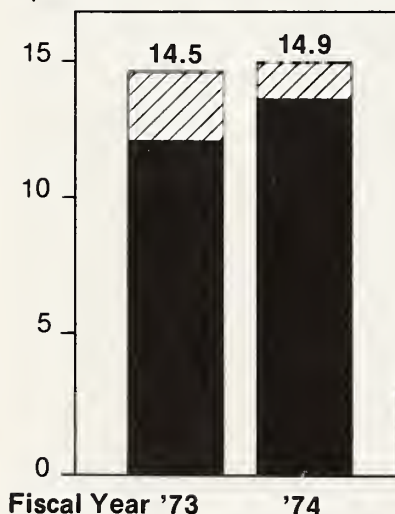

**Charitable Institutions** which provide meals to indigent patients and residents. Over 2.7 million persons — the same as the previous year — were assisted at a Federal cost of \$24.8 million — down 9.5 percent from the previous year.

■ Food Stamp Areas

▨ Non-Food Stamp Areas

# Food Stamp Program

The Food Stamp Program — started on a pilot basis in 1961 and enacted into law in 1964 — enables low-income households to buy more food of greater variety to improve diets. Participants paid a specified amount of money, based on family size and income, and received an allotment of coupons worth more than they paid, when spent for food at participating stores.

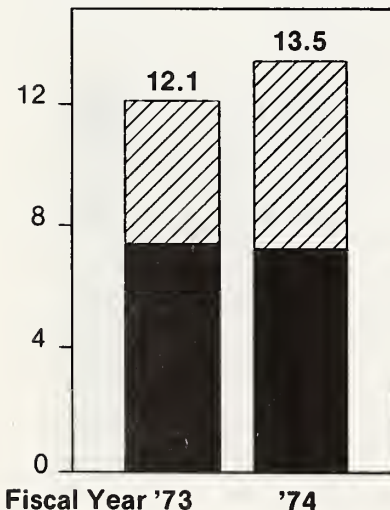

In fiscal year 1974:

- The program continued to expand nationwide as an additional 590 project areas switched from food distribution to food stamps. Thus, the total number of food stamp areas rose 26.5 percent — to 2,818 in 49 States and the District of Columbia, by the end of fiscal year 1974. As a result, 94 percent of the U.S. population — up 11 percentage points over the previous year — was in areas operating the Food Stamp Program at the end of the fiscal year.
  - During the peak month of operation, participation reached 13.7 million people, compared to 12.7 million the previous year.
- As the fiscal year ended, participation was 13.5 million people, compared to 12.1 million a year earlier — up 11.6 percent.
- Recipients paid \$2 billion and received food stamps worth a total \$4.7 billion, giving them a food buying bonus of \$2.7 billion, up 27.7 percent from the previous year. Of the total bonus dollars issued, slightly over \$1.9 million in bonus food stamps were issued on an emergency basis to over 61,000 victims of natural disasters in 56 project areas in 7 States.
  - Food stamp benefits per person averaged \$17.61 a month, up 20.6 percent from the previous year. New legislation in fiscal year 1974 provided for an adjustment of coupon allotments twice a year to reflect changes in the price of food.
  - The number of authorized outlets accepting food stamps increased to nearly 201,000, a gain of 21,000 during the fiscal year. Included are 197,000 retail stores, 2,600 wholesale outlets and 1,200 non-profit meal delivery service programs for the elderly.

# Food Distribution Program

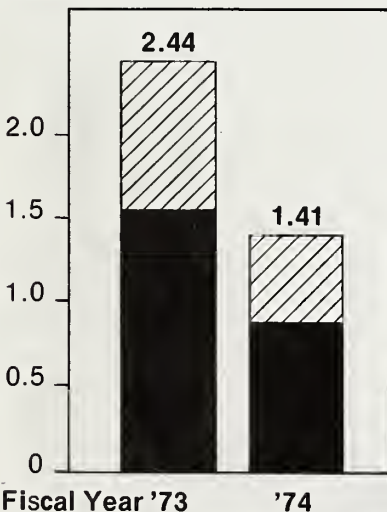

Since the 1930's, food bought by the U.S. Department of Agriculture in its price-support and surplus-removal activities have been donated for distribution to needy families through cooperating State and local agencies. In line with the Congressional mandate to establish a nationwide food stamp program, most areas of the country had converted to food stamps by the end of fiscal year 1974. Indian reservations, however, were given an option to continue food distribution until June 30, 1977.

In fiscal year 1974:

- Nearly 2.4 million needy persons received donated foods in some 388 project areas — a decrease of 445,000 people and 589 project areas from the previous year. By the end of the year, participation had reached a low of 1.4 million — 1 million below the same month in the previous year — as most areas completed the switch to food stamps.
- Recipients received a monthly average of 23.1 pounds of food per person at a Federal cost of \$7.97.
- In all, the needy family program distributed 549 million pounds of donated foods, 40.3 percent less than the 919 million pounds distributed the previous year.
- The total Federal cost of the food for needy families come to \$189.4 million, down 21.5 percent from fiscal year 1973, as programs switched over to food stamps.
- Additionally, 87,000 people — victims of natural disasters — received 487,000 pounds of donated food at a Federal cost of \$227,000.

# Special Supplemental Food Program for Women, Infants and Children (WIC)

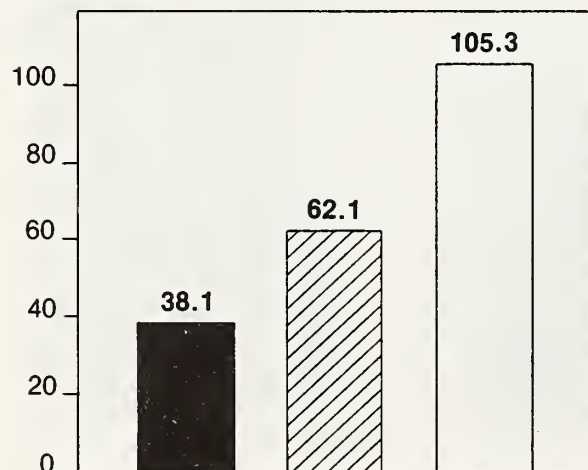

**Pilot Supplemental Feeding Program for Women, Infants and Children (WIC)**, begun in January 1974, provides cash grants to State health departments and comparable agencies to make supplemental foods available to pregnant and lactating women, to infants, and to children up to 4 years of age through participating health clinics.

In the last month of fiscal 1974, the program was serving 205,500 people in 236 project areas. Federal payments for WIC in the first 6 months of operation were \$10.4 million — with 21 percent of the total spent for clinic and administrative expenditures, and the remaining 79 percent representing the cost of food.

# Explanation of Tables

---

## **Total Contributions to Food Assistance Programs**

Total cash and Federal donated commodities used in each of the nine Food and Nutrition Service Programs do not include administrative or operating costs, associated with the Food Stamp Program.

## **Availability of Child Nutrition Programs in Schools**

*Total Public and Private Schools:* All public and nonprofit private elementary and secondary schools in the 50 States, District of Columbia, and Territories (American Samoa, Guam, Puerto Rico, Virgin Islands, Trust Territories, and overseas dependents schools).

*National School Lunch Program (NSLP):* National School Lunch Programs are those that entered into an agreement with the U.S. Department of Agriculture to:

- Serve Type A meals (prescribed food components meeting approximately one-third of the daily nutritional requirements) and

- Have an acceptable policy that will provide needy children with free or reduced-price meals.

*Breakfast Program:* Those schools serving breakfasts that receive funds under the Child Nutrition Act.

*Nonfood Assistance Program:* Represents the total number of schools that used one of the following sources of aid for the purchase of food service equipment:

- Child Nutrition Act Funds

- Supplemental Section 32 Funds

## **Child Nutrition Programs in Schools**

Those schools operating under the National School Lunch Act of 1946, as amended, and/or the Child Nutrition Act of 1966, as amended.

*Participants:* This term is synonymous with children reached and is based on adjusting the number of meals served daily by States to account for absenteeism. The national absentee rate was 8.0 percent during fiscal year 1974. The resulting participation is an average number for a peak month, nationally. Participation would be higher if

each State's individual peak were considered, or if reports were based on the largest number of meals served on a single day. Participation also assumes that the same child eats every day when in school.

*Peak Reached:* The average number of meals served daily or the number of participants served during the peak month, nationally. Individual States could have a different peak month, thus, the numbers shown tend to understate the children reached.

*State Administrative Expense (SAE):* Covers funds apportioned to States (\$3.8 million in fiscal year 1974) in order to provide financial assistance for administering USDA child feeding programs.

*Federal Cost of Commodities:* The cost of all donated commodities that are provided by USDA.

USDA sources:

- Section 6: Special funds authorized under the National School Lunch Act, for NSLP schools;

- Section 32: Commodities purchased with surplus-removal funds authorized under the Agricultural Adjustment Act of 1935 (P.L. 320), as amended;

- Section 416: Commodity Credit Corporation price support commodities authorized under the Agricultural Act of 1949, as amended; and

- Section 709: Commodity Credit Corporation dairy price support commodities (other than fluid milk in the case of schools) authorized under the Agricultural Act of 1965, as amended.

Types of schools provided donated foods:

- National School Lunch Program schools.

- Breakfast Program schools.

*Commodity-Only schools:* Those schools receiving only Section 32 and 416 commodities. These are public and nonprofit private schools that have a food service program and receive USDA-donated commodities, but do not participate in the National School Lunch Program. They are not eligible to receive cash reimbursements or Section 6 commodities.

*Note:* Commodity costs for the breakfast program were estimated by the Child

Nutrition Division to be about 3 cents per breakfast in fiscal year 1974. This cost has been deducted from the total cost of food distributed leaving the remainder to represent the cost of NSLP schools and "Commodity-Only" schools.

*Federal Program Outlay is the same as All Federal Outlays except that it excludes State Administrative Expense (SAE):*

Federal Program Outlay per child is based on dividing the total Federal Outlays, excluding SAE by the number of participants reached during the peak month (see definition of *Participants* on preceding page).

Federal Program Outlay per meal is based on dividing the Federal Outlay excluding SAE by the total number of meals served.

### **Special Milk Program**

Number of outlets refers to the peak number of schools, child-care institutions and summer camps for which claims have been approved during a single month for each type of outlet, nationally.

### **Special Food Service Program**

Special Food Service Programs serve children of school age or under, in non-residential, nonschool institutions such as child-care centers, settlement houses, and recreation centers.

*Year-Round:* Establishments operating a program all through the year, generally serving preschool children.

*Summer Only:* Programs operating about 50 days during the summer, usually in July and August. The summer-only programs primarily serve school-age children.

*Number of Outlets:* The peak number of institutional outlets for which claims have been approved for a single month, nationally.

*Average Daily Attendance:* The number of children actually attending daily, as opposed to enrollment.

*Total Meals Served:* Includes the total number of meals served in year-round and summer only outlets and includes the total for the following types of meals:

Breakfasts

Lunches

Supplemental Meals (snacks)

### **Suppers**

#### ***Federal Contributions:***

**Cash:** Includes Section 13 (National School Lunch Act) funds and Section 32 funds used for equipment in fiscal year 1974.

**Commodities:** Includes the Federal cost of all federally donated commodities. (See Special Food Service Outlets described under Food Distribution Program, below.)

### **Food Distribution Program**

**Outlets:** Refers to the number and kinds of outlets reported by the States as receiving federally donated foods. Types of outlets include the following:

**Schools:** Includes schools operating a lunch or breakfast program under the National School Lunch Act as well as nonprofit schools not participating in the National School Lunch Program but providing elementary and secondary children with food service on a nonprofit basis. Subclasses of schools based on types of commodities utilized includes:

Section 32, 416 and 709 outlets: Includes all schools — Lunch, Breakfast, and "Commodity Only" schools.

Section 6 Outlets: Includes only National School Lunch Program schools.

**Special Food Service Outlets:** Child feeding outlets (institutions, not schools) obtaining only Section 32, 416 and 709 foods. For the purpose of this table and the allocation of donated foods, Special Food Service outlets are grouped under schools.

**Institutions:** Include all nonprofit outlets, other than Special Food Service outlets, receiving Section 32, 416 and 709 foods only. Institutions are divided into the following two categories:

**Year-round:** Outlets operating on a year-round basis, such as nonprofit orphanages, old age homes, hospitals, etc.

**Summer Camps:** Nonprofit summer camps operating between June and September.

**Needy Persons:** Individual participants as a class of outlets receiving Section 32, 416 and 709 commodities directly. Recipients in this category include:

**Needy Families:** The number of persons

---

participating in the Needy Family Food Program during the peak participating month in fiscal year 1974.

**Supplemental Food:** The number of eligible mothers, pregnant women, and children 5 years of age or under, provided with a specially designed package of donated foods in order to meet their nutritional needs. The participation data are based on the peak month of operation in fiscal year 1974.

**Disaster Relief:** The number of people helped is based on reports received from the State agencies involved in disaster relief operations.

**Persons Participating:** Persons receiving the benefits of federally donated goods in each of the outlets described (see definition of *Outlets* on preceding page) during peak month, nationally.

**Pounds:** Includes those pounds of all commodities reported by the States as distributed to program recipients during fiscal year 1974.

**Federal Cost for Commodities:** The actual acquisition cost, plus those transportation and storage costs incurred by USDA.

**Cash Assistance to States for Needy Family Program:** Cash funds allocated directly to the State agencies for the purpose of providing financial assistance to the States for distributing USDA commodities.

## **Food Stamp Program**

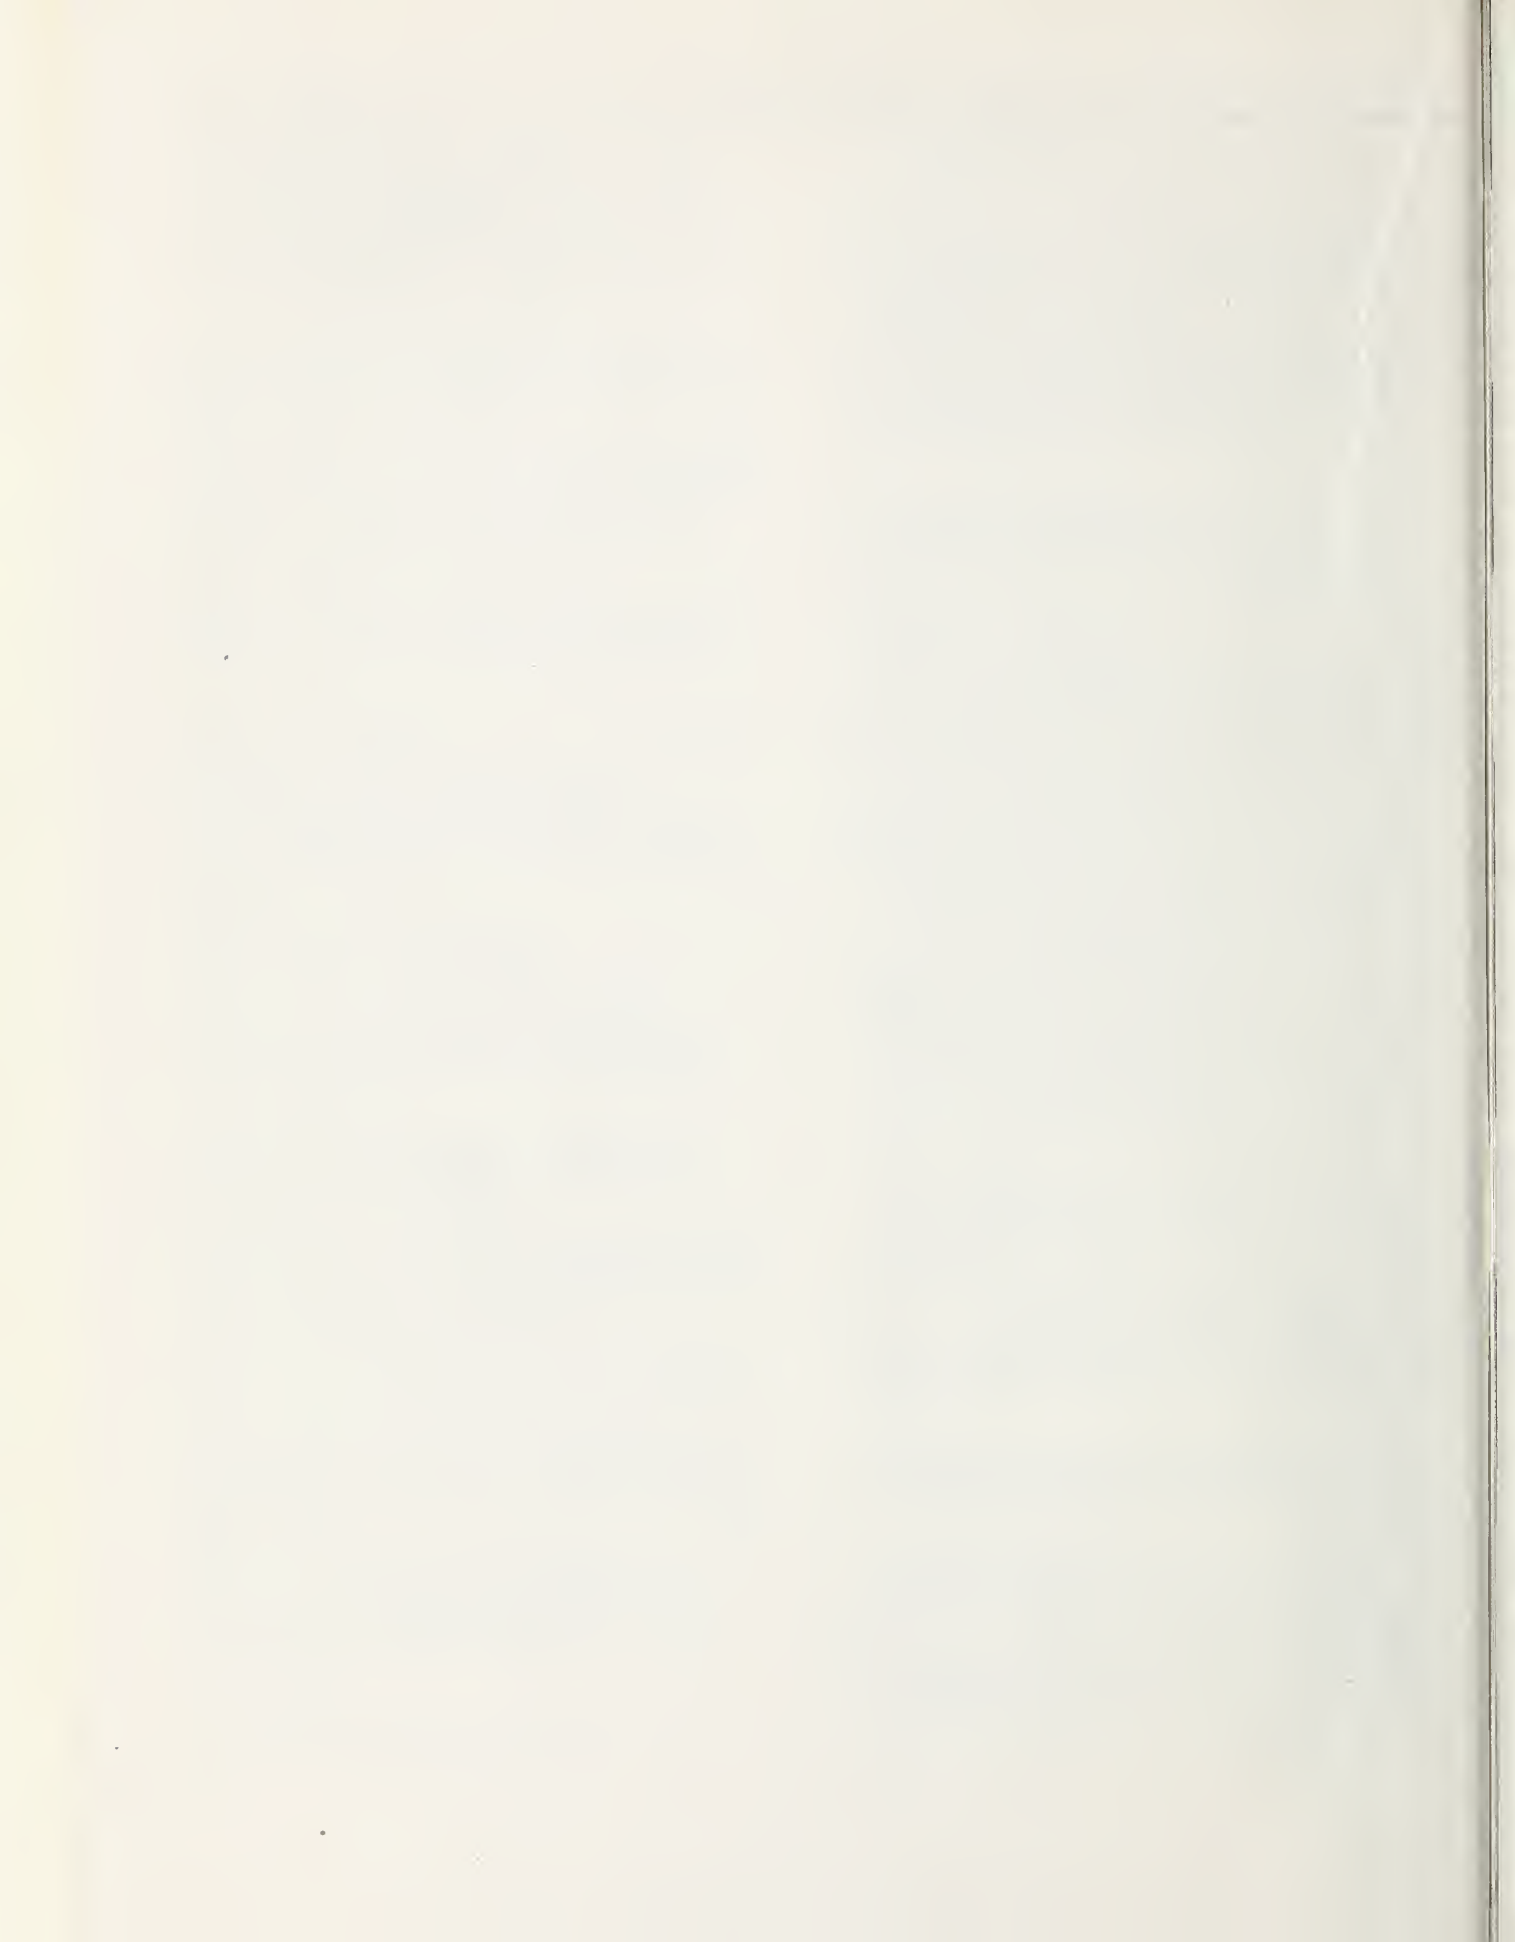

**Projects:** Operating units that generally coincide with counties, but also include welfare districts, independent cities, Indian reservations, and partial counties. A project may also include more than one county.

**Persons Participating:** The number of participants reached at the end of the fiscal year, i.e., June 1974.

**Coupons Issued:** Food stamp coupons actually issued to food stamp recipients during the fiscal year.

**Total Coupons:** The total value of coupons issued equals the cash amount paid by the recipients, plus bonus coupons.

**Bonus Coupons:** The value of food stamp coupons that are provided free by USDA.
